

Hey Pilots,

Tim Cooper has been attempting to contact us by email via his personal ISP. They have blocked his attempts as a spam so you may not have been getting the info he has been trying to distribute.

I have created a email server account on my website. From now on, to reach Tim or the "committee" representing Long Beach and affiliating campuses, email to:

Pilots@TCVSystems.com

I will also be creating a website to archive info that we have gathered to-date. By the end of today, you can access the site at:

<http://www.TCVSystems.com/HeloPilots>

To ensure that we have current info on you, please respond to this email with current contact info: Correct spelling of your name, address, phone numbers, fax number (if you have one), etc.

Thanks,

And keep the big spinny thing above your heads and the little spinny thing behind you.

Tony Vaca
